BETWEEN HOPE AND FRUSTRATION

**SELF-PERCEIVED FUTURE VISIONS OF CROATIAN YOUTHS IN THE LIGHT
OF THE EU-ACCESSION**

u ponedjeljak, 2. ožujka 2015. godine u 17 sati u predavaonici A125

Sažetak izlaganja:

With the enlargement of the European Union one of the youngest countries of Europe became a member state in 2013, after years of negotiation. The accession took place during an economic and institutional crisis and so the accession was described as the hope for a better future for the whole society, which should bring improvement to the situation. Looking at the prescribed future visions of Croatia's youth could lead to an impression of a hard future followed by low paid internships, multiple jobs or even unemployment. While these youths are the future of the country it is especially important to ask if, and how, the accession to the European Union can give answers to their self-perceived future visions and distrust in the political institutions of the Croatian state apparatus, to ask at the same time how they perceive the future of the country and the EU as a whole. The presentation will give an overview regarding its theoretical establishment, the methodology used and initial results of the anthropological fieldwork which was undertaken under the main question: "How do Croatia's youths perceive their own future possibilities in the light of the EU-accession and how does this influence their everyday?".

mobilnaEKA – Platforma za mobilnost i međunarodnu suradnju etnologa i kulturnih antropologa

Platforma je jedna od inicijativa Odsjeka za etnologiju i kulturnu antropologiju Filozofskoga fakulteta u Zagrebu kojom se potiče i jača suradnja domaćih i inozemnih etnologa i kulturnih antropologa i znanstvenika srodnih disciplina. Organizacijom različitih događanja – radionica, predavanja, okruglih stolova i sl. – stvaramo prostor za razmjenu znanja i istraživačkih iskustava, za učvršćivanje veza domaćih i inozemnih znanstvenih institucija, za pokretanje zajedničkih istraživačkih projekata te za kritičko promišljanje akademske mobilnosti kao jednog od naglasaka znanstvenih politika.
